SNNDAY BALL.

Its Promoters Produce a Kind of Anarchy, Says Dr. Sooy.

SCORES WEEK KNEED SQUIRES

The Fight Will be Kept Up, Says the Fourth Street Pastor, and He Advises a Reckoning With Certain Squires and Constables at the Polls-Liquor Men Not Averse to the Games.

A spicy sermon against Sunday base ball was delivered by Rev. Dr. Sooy, pastor of the Fourth street M. E. church, last night, to a large congrega-tion. The theme was "The Inter-state League vs. Anarchy and Lawlessness," and it was handled with more of the speaker's characteristic carnestness than usual.

Dr. Sooy's text was from Isaiah, chapter 15, verses 13 and 14, it referring to the observance of the Sabbath, but he said he would not make any exposition of it. . He would speak more closely regarding his theme. The Inter-state base ball league, he charged with an-archy, because the managers of the tehms were promoters of disorder-they sought to violate and avade the Sunday laws. It might be argued that the base ball people did not favor disorder and that Sunday crowds were orderly. A disorderly house did not have to be districts of Ohio county in the congres-noisy or riotous; it was disorderly when sional nominating convention will be it was not in keeping with law and order. In this connection, Dr. Sooy recalled testimony he gave in a court of justice regarding the conduct of gambling houses and race tracks, some

years ago.

The meanest kind of subterfuge was the Sunday game for "charity," and it was laughed at by opponents and advocates of Sunday base ball. In defying the law, the league took the stand of anarchy. The speaker said the league had legal advice to defy the law and continue the Sabbath games, and he scored the lawyer for offering such suggestions. Because there were other vic lations is no reason why base ball games should be played on Sunday. The speaker read an editorial from the Intelligencer, commenting on it favorably as hitting the nall on the head.

The anti-Sunday base ball resolution offered in the second branch of council. said Dr. Sooy, was a test fathered by the ministers, to test the sentiment of the liquor men, and it demonstrated the liquor men were not against Sunday ball, as had been reported. Dr. Scoy said the outcome of the fight was being watched by a man with \$50,000 at his back, who intended to erect a big beer garden at the upper end of the Island if Sunday base ball could be played. The question was dodged by some of

the justices of the peace, continued the speaker. Some excused their position when refusing to make out warrants by saying: "I never take criminal business into my court." Others refused positively to have anything to do with it. The constables were as weak and cow-Idly as the justices, and Dr. Sooy said the people could deal with these officials at the polls. It was a lamentable condition of affairs, when a crowd of men defy law, advised so to do by legal counsel, tell the people it is none of their business, while the squires and the constables, sworn to obey and administer the law, refuse to do either. "It is a situation of anarchy, said the speaker, "and how do you people like it?"

For yesterday's games there would be arrests, and every Sunday, continued Dr. Sooy. The management would be prosecuted also for refusing to allow a constable on the grounds the previous The grand jury would deal with the controversy satisfactorily, he

The reason of the Wheeling club's declding to play Sunday ball on the Island this year, after being scared out in 1899, and this year by the Belmont county authorities, was asserted to be "official weakness. The sheriff and mayor were This official weakness had given Wheeling the reputation all over the nation as being a "wide open"

Turning his attention to Sabbath desecration in general, the speaker spoke of the parks, and said that one of them inaugurated Sunday evening con-Turners' field day will be held at the same park next Sunday, "and you all know what a Turners' field day is," remarked the doctor sententiously, at which the congregation smiled.

Dr. Sooy then read from a clipping

from Saturday's Intelligencer, relating to a report in New York that Wheeling was to become the location for the big championship prize fights, and he said that the advantages offered for this purpose by Wheeling were not a by the Ministerial Union or the Federation of Churches. He had been charged with giving the city a bad name. But the sporting class had lauded its "wide features, "and the devil now thinks he can come into Wheeling, with his cloven hooves, boxing gloves and tail," he said.

In his conclusion, Dr. Sooy argued for a quiet Sunday. He said the base ball people and other Sabbath violators should be shown that liberty was not license. This country didn't want a continental Sunday. It did not want an-There should be accorded a liberty to right but not a license to do

WARM PRAISE

For the Intelligencer for Its Stand Against the Flagrant Violation of the Laws and Offences Against the Public Morality.

To the Editor of the Intelligencer.

SIR: -Belleving in rewards both for the present and future life for the good, as I do, moves me to express my approval of your recent editorials upon the questions of vital importance to our the necessity for the execution of the laws of the city, state and nation. Many there are who criticism the press for not saying more against the evils of social and political life they permitted to run their course,

would destroy our homes, churches and our nation. Bu But these same critics frequently fail to express their approval of the good that is spoken by the press. We do not complain of this, for it is both a natural and a ommon occurrence.

Men have lived lives of devotion and usefulness, making the world better by their every act, and with but few words of encouragement or endorseare profuse which, if expressed during their lives, would have enabled them to accomplish much more for the elevation of humanity. I therefore wish to endorse most heartily your noble and course upon these fundamental principles of real and permanent sucess, and which must commend themselves to any thoughtful people. Your influence exerted for the right will do great good and I trust that you may ever wield your pen in behalf of the truth. C. B. GRAHAM, truth.

POLITICAL NOTES.

The news from Hancock county, where the Republicans chose delegates to the state nominatig covention Saturday, is viewed differently by two of the candidates for auditor. Mr. Lathe candidates for auditor. Mr. La-follette believes that he has most of Hancock's delegation. On the other hand, Mr. Hall's friends are confident that he will have the majority of the delegates. Mr. Hall received the best of the news Saturday night from Lincoln county, whose delegation is in structed for him.

The voting strength of the several determined by the percentage of each district's vote for Dovener in 1898. The call for the convention fixes the county's representation at one vote for each 100 votes cast for Governor Atkinson in 1896, but owing to the change in dis trict lines it is necessary to allot each district's proportion of the county's vote on the busis of the 1998 election.

The Mark Hanna Club, of Benwood held a meeting Saturday night, at the Benwood city hall and reorganized for the campaign. Paul Reidel was elected president, and Will Geraghty was elected secretary, Harry M. Stewart and Robert Newton were chosen as the finance committee. nine members were enrolled and the club expects to get one hundred. It will meet next Sunday afternoon and organize a marching club. It was declded to change the name to the M. S. Quay club, owing to pressure from Moundsville, a man from that town guaranteeing a handsome banner if the When the club change were made. took Senator Hanna's name four years ago it expected a banner from him, but for some reason it failed to arrive

TOPEKA, Kas., May 20 .- The Masonic orders of Topeka, particularly the Knights Templar, are planning to prosecute local Christian scientists, who, they say, were responsible for the death of Mrs. John M. "Mrs. J. M. Torrence came to her death by peritonitis (general) caused by perforation of the intestines, due to typhold fever. The case was under Christian Scientist management, and had no medical care or treatment, and in our opinion she did not have intelligent care which would give her any possible chance for recovery."

Unreasonable Criticism

DENVER, Col., May 20.—The con-ventions of the Western Federation of Miners and of the Western Labor Union, now in session in this city, adopted strong resolutions denouncing Governor Steunenberg, of Idaho, for his action in the Coeur d'Alene trouble, to clear the track, but they will not be and urging the voters of the state to refuse to support him, or any one who upholds him. The labor union resolu-tions also denounce President McKincerts yesterday, while the fences are ley, General Merriam and others, who covered with bills proclaiming that a are held responsible for the hardships endured by the Idaho miners, and de mand that the President "either with

Mother's Friend

does expectant mothers so much good is because it is an external liniment, to be applied upon the outside, where much of the strain comes. It helps because the pores of the skin readily absorbit, and it comes into direct contact with and is absorbed by the parts involved. Morning sickness is quickly banished, and nervousness is kept completely away. The sense of dread and foreboding is not experienced, even during labor itself. Confinement is short and almost without pain. Recovery is quick and sure. Best of all, Mother's Priend benefits the unborn just as much as the expectant unborn just as much as the expectant mother, and when the little one comes it will be strong, lusty and healthy.

NAVY YARD EMPLOYES

To be Granted Fifteen Days' Leave of Absence in Case Senator Elkins Bill Passess.

WASHINGTON, D. C., May 20 .- Sen ator Elkins is making an earnest effort to secure the passage at the present session of Congress, of the bill intro-duced by him the 8th inst., providing for the granting of leaves of absence to employes of the government navy yards. Under existing law all such employes lose all the time thay may take away from work, while the clerks in the departments are entitled to thirty days each and every year. Senator Elkins first endeavored to have the navy yard force given thirty days, but this was found to be impracticable, and he accordingly changed the bill so as to make the allowance fifteen days. measure provides: "That each and every employe of the navy yards, gun factories and naval stations of the United States government be, and hereby, granted fifteen working days' leave of absence each year without forfeiture of pay during such leave: Provided, That it shall be lawful to al low pro rata leave only to those serv ing six consecutive months; and provid ed further, that in all cases the heads of divisions shall have discretion as the time when the leave can best be allowed without detriment to the service and that absence on account of sickness shall be deducted from the leave hereby granted."

INDIANA REPUBLICANS

Will Start a Boom for Senator Fairbanks for President in 1904.

INDIANAPOLIS, May 20, -Indiana Republican leaders and delegates to the ational convention will go to Philadelphin with the intention of starting a boom for Senator Fairbanks for President in 1904. They have talked the mat ter over among themselves and have concluded that the time is ripe to begin Since Congressman Landiz, in a speech before the state convention announced that Indiana would propose the name of Senator Landis for President in 1904, it has been regarded as almost a certainty that Senator Fairbanks will be a candi date for the nomination. It is probable that Senator Fairbanks will be made chairman of the Indiana delegation at Philadelphia. There will probably be a thousand Indianians at the convention

A Dagger in Her Breast.

BOSTON, May 20 .- Mae Butler, an anusually handsome woman, twentythree years of age, and said to have been married, was found dead in bed at the residence of Mrs. A. E. Wright in Rexbury, early this morning, with a dagger in her breast, and Edwin T. Wright, son of Mrs. Wright, is under arrest on suspicion of having murdered her. The death was first reported to the police as a suicide, but soon after they had investigated the case they fell justified in taking young Wright into custody pending a more searching inquiry. There is little evidence against

To Inspect American Warships.

NEW YORK, May 20 .- Rear Admiral hmed Pasha, who arrived at this port Friday night on board the steamship Auguste Victoria, said last night that his mission to this country had no connection with any work of diplomacy Instead, the purpose of his mission, he said, was to inspect American warships and methods of naval and ordnance construction with a possible view of purchasing a cruiser for the Turkish government.
